**Service Charges – Water Revenue**: A positive variance of 8% was attained for the financial year ended 30 June 2024.

**Fines, penalties and forfeits**: A negative variance of 60% is recorded for the YTD. The original budget was incorrectly uploaded onto the Phoenix system which resulted in the variation between the actual results and budget to date. The actual results are currently in line with expectations (original budget).

**Operational Revenue - Exchange Revenue**: A negative variance of 49% is recorded due to underrecovery on sundry receipts and insurance claims.

**Operational Revenue – Non-Exchange Revenue**: A negative variance of 14% is recorded due to more revenue recognized than anticipated in the budget. Revenue from availability refuse largely contributed to the variance.

Please refer to table C4 for a Breakdown of Revenue by Source.

The total expenditure to date is R513.104 million which represents 94.52% of the total operating expenditure budget for the year.

With regards to the variances in respect of expenditure the following is highlighted:

**Employee related costs:** A negative variance of 5% due to budgeted vacancies not filled, however the provision for employee benefits, both post-retirement and in-service benefits needs still to be done after receipt of actuarial reports.

**Bulk Purchases - Electricity**: A negative budget variance of 2% is reflected due to loadshedding and people leaving the grid.

**Inventory Consumed**: A negative YTD budget variance of 14% due to a combination of under-over expenditure on bulk water consumption(under), fuel generators (under) and purchase of refuse bags(under).

**Contracted services**: A negative YTD budget variance of 21% is reflected due to a combination of under-over expenditure on Professional Services – Housing (under), Solid waste removal (under), fines management (over) and Phoenix ERP (under). This figure will change after year end provisions for invoices dated 30 June have been made.

**Transfers and Subsidies:** A negative YTD budget variance of 10% is reflected. Actual payments are not aligned with the year-to-date budget as performance on grant funded programs are difficult to predict upon compilation of the initial budget. Transfers and grants solely get paid out when a claim gets handed in according to the legislative framework.

**Operational Costs**: A negative YTD budget variance of 23% less than budget is recorded due to a combination of under and over expenditure on the following categories: Fuel (over), Rehabilitation refuse sites (under) and Insurance (under). It is anticipated that this figure will also change after the year end processes have been completed.

Refer to Table C4 for further details on both revenue by source and expenditure by type.
