This will irrespectively apply to all types of goods and services; catering, transport, training, construction, consultancy and legal services, ect.

The following instruction has now been issued by National Treasury: With effect from 1 July 2016, municipalities **must** use the CSD supplier number starting with (MAAA). - Tender defaulters and restrictions status

The following aspects are work-in-progress and further information will be provided once systems have been upgraded. Municipalities are required to continue with the current and existing process on;
