KENNISGEWING: WATERBESPARINGSMAATREËLS

Weens die lae reënval in die opvangsgebied die afgelope tydperk word drastiese waterbeperkings onmiddellik ingestel tot verdere kennisgewing.

Watergebruik word beperk tot slegs menslike gebruik en die volgende beperkende maatreëls word ingestel:

- Geen drinkwater mag gebruik word om tuine, sportvelde en parke nat te maak nie.
- Die gebruik van tuinslange wat direk of indirek aan die Raad se hoofwaterleiding gekoppel is vir die afwas of afspuit van geboue, strukture, paaie, sypaadjies en geplaveide areas, word verbied.
- Tuinslange mag nie gebruik word vir die was van voertuie nie.
- **Oortreders wat bogenoemde besparingsmaatreëls oortree, sal streng beboet word.**

Daar word staat gemaak op die samewerking van alle waterverbruikers in hierdie krisis-situasie.

NOTICE: WATER CONSERVATION MEASURES

Due to the recent low rainfall in the catchment area, the following drastic water saving mechanisms will be effective immediately until further notice.

Water consumption is restricted to human use only and the following water restrictions are in force:

- No potable water may be used to irrigate gardens, sports fields or parks;
- The use of hose pipes connected directly or indirectly to, or derived from Council's potable water mains for the purpose of washing or rinsing buildings, structures, roads, pavements and paved areas, is prohibited.
- A hose pipe may not be used to wash vehicles
- **Should anyone contravene these restrictions, strict fines will be imposed.**

The co-operation of all water consumers in this crisis situation will be appreciated.
